Skills

Mobile app development using Flutter.

- Proficient in **Dart** programming language.
- Experience working with **APIs** to integrate external data and services.
- State management using tools like **Provider**, **Bloc**, or **Riverpod**.
- Application of **Design Patterns** (e.g., MVC, MVVM) in app development.
- Strong understanding of **Object-Oriented Programming (OOP)** principles.
- Designing interactive and visually appealing user interfaces using **Flutter Widgets**.

Education

Egyptian e-learning university

- *Expected Graduation: June 2026*
- **Cumulative Grade (Latest Year):** Very Good / B.
- Studied **Java** at university, covering core concepts up to **Data Structures**.
- Completed coursework in **Artificial Intelligence (AI)** and **Python**.
- Learned **Software Engineering** fundamentals, including:
- Gained hands-on experience in **Software Testing**

Internships

Flutter Developer Intern (DEPI) November 2025 – Present

- Developing high-performance, cross-platform mobile applications for **Android and iOS** using the **Flutter** framework and **Dart** language.
- Mastering **State Management** solutions (such as Provider, Bloc) to handle complex app logic and data flow.
- Integrating **RESTful APIs** and handling JSON data to create dynamic and real-time application features.
- Implementing responsive and modern **UIs** by converting Figma designs into clean, reusable code.

Information Technology Institute (ITI) | Front-End Web Development Trainee July 2025 – August 2025

- Developed highly responsive and interactive user interfaces using **React.js**, **ECMA 6 (ES6+)**, and advanced **CSS preprocessors**.
- Mastered **Responsive Design** principles to ensure seamless user experiences across various devices and screen sizes.
- Gained hands-on experience in **Client-side technologies** and software architecture through a dedicated capstone project.

Projects

Flutter News App (Beginner Level)

- Developed a **News App** using **Flutter** and **Dart** as a beginner project.
- Integrated with a **public API** to fetch and display news data.
- Implemented **state management** to handle data flow and UI updates.

Meal App (Flutter - Beginner Level)

- Developed a **Meal App** using **Flutter** and **Dart** as a beginner project.
- Implemented features to browse meals, view details, and filter by categories.
- Designed a clean and intuitive user interface using **Flutter widgets**.

CIMAX - Movie & TV Discovery App (Flutter - Intermediate Level)

- Developed a full-featured movie and TV show discovery app using Flutter & Dart with Clean Architecture principles.
- Integrated TMDb API to fetch real-time data including movies, series, cast, ratings, and trailers.
- Implemented Firebase Authentication (Email/Password & Google Sign-In) for secure user management.
- Built state management using Riverpod with FutureProvider and StateNotifier patterns.
- Implemented features including: search, genre filtering, watchlist (Firestore), and YouTube trailer integration.
- Utilized GoRouter for navigation and CachedNetworkImage for optimized image loading.

TaskFlow AI (*Flutter - Advanced Level*)

- Developed a full-featured AI-powered productivity app using Flutter & Dart with Clean Architecture.
- Integrated Google Gemini AI for task breakdown, goal planning, daily scheduling, and productivity coaching.
- Implemented Firebase Authentication (Email & Google Sign-In), Cloud Firestore for real-time data sync, and Firebase Storage.
- Built state management using Riverpod with multiple features: Task Manager, Habit Tracker, Pomodoro Timer, and Analytics Dashboard.
- Designed a modern UI with Light/Dark theme support, custom animations, and smooth navigation using GoRouter.

Certificates

Flutter Boot Camp

- *Easy Learn Academy* | *Completed: Oct 2025*
- Completed 21 hours of intensive training in mobile app development using Flutter & Dart.

UI & UX Advanced (50 Hours)

- *KAAF / CREATIVA (ITIDA & TIEC)* | *Nov 2025*

UI & UX Fundamentals (50 Hours)

- *KAAF / CREATIVA (ITIDA & TIEC)* | *Aug 2025*

Languages

- **Arabic**
Full professional proficiency
- **English**
Professional working proficiency

personal data

- **Military Status:** Postponed (Student)
- **Date of Birth:** 5 October 2004
